

EDUCATION

Parul University

2024 - 2026

M.Sc. - IT - Cloud Computing - PIET | CGPA: 8.64 / 10

Parul Institute of Pharmacy and Research, Vadodara

2016 - 2020

Bachelor of Pharmacy (Full Time) | CGPA : 7.07 / 10

Shree Narayan Vidyalaya

2016

12th | GSEB | Percentage: 61.53 / 100

Shree MP high school

2014

10th | GSEB | Percentage: 81.33 / 100

PROFESSIONAL EXPERIENCE

SUN PHARMA PVT LTD | Pharmaceutical | PRODUCTION/QA

01 Oct, 2020 - 01 Jun, 2024

OFFICER(CENTER OF EXCELLENTION)

Key Skills: Quality Assurance Quality Check Production QAMS

Worked as an Officer in the Center of Excellention, actively contributing to both Production and Quality Assurance functions. Ensured compliance with cGMP and regulatory standards. Involved in quality monitoring, process validation, documentation, deviation handling and continuous process improvement. Proficient in QAMS and quality check protocols for injectable pharmaceutical manufacturing. Collaborated with cross-functional teams to implement best practices and maintain product integrity.

PROJECTS

DigiPin Bharat – India's Smartest Location Sharing App

Key Skills: Flutter Android Studio Mobile App Development UI/UX Design QR Code Integration

Project Link: <https://play.google.com/store/apps/details?id=com.digipin.bharat>

Designed and developed "DigiPin Bharat," a high-precision, privacy-first location-sharing Android app inspired by India Post's digital pin system. Built entirely solo using Flutter and Android Studio. Key features include smart QR sharing, offline access, multilingual UI (Hindi, Gujarati, Tamil, Marathi, Urdu, English), auto theme switching and data privacy with no cloud or tracking. Launched the app independently on Google Play to solve real-world location-sharing challenges in India.

Python File Sharing Bot – Unlimited Telegram File Storage

Key Skills:

Python Telegram Bot API Database Management File Storage User Analytics Automation

Cloud Hosting (Contabo) Bot Deployment

Project Link: https://t.me/file_sharing5233_bot?start=3bk0IF5VSLwK

Developed a free Telegram-based file sharing bot offering secure, unlimited cloud storage without subscription costs. Users can upload, manage, and share files through smart links, with built-in analytics to track views and downloads. Key features include a time-bomb auto-delete option, organized file management, and admin broadcast tools. Designed with scalability, privacy and performance in mind. Deployed on Contabo VPS, fully coded in Python with modular architecture for easy feature extension.

ASSESSMENTS / CERTIFICATIONS

Logic Development Using Python

Key Skills: Python Programming Logic Building Problem Solving Programming Fundamentals Code Debugging

Completed a value-added course on "Logic Development Using Python" at Parul University. The training focused on strengthening core programming logic, Python syntax, and real-world problem-solving techniques. Guided by Dr. Priya R. Swaminarayan and faculty experts, this course laid a strong foundation for software development and future cloud-based applications.

IT Specialist – JavaScript Certification

Key Skills:

- JavaScript Fundamentals
- Programming Logic Functions
- DOM Manipulation
- Event Handling
- Web Development Client-Side Scripting

Successfully earned the IT Specialist – JavaScript certification from Pearson. The certification validates proficiency in core JavaScript concepts, including logic building, functions, working with the Document Object Model (DOM), and handling browser events—strengthening my foundation as a front-end/web developer.

IT Specialist – HTML and CSS Certification

- Key Skills:
- HTML5
- CSS3
- Web Page Design

Earned the IT Specialist – HTML and CSS certification from Certiport (Pearson VUE), validating my proficiency in structuring and styling modern web pages using HTML5 and CSS3. This certification enhances my foundation in front-end web development and aligns with industry-standard practices.

SEMINARS / TRAININGS / WORKSHOPS

DevOps Meets AI: The Next-Gen Cloud Career Path23 Jun, 2025 - 23 Jun, 2025

Institute Name: Parul Institute of Engineering and Technology

- Key Skills:
- DevOps
- Artificial Intelligence
- Cloud Computing
- Amazon Q
- No-Code Development
- AWS Services

Attended an insightful seminar organized by AWS Cloud Club at Parul University, led by Mr. Shubham Londhe (Developer Advocate at AWS). The session explored the intersection of DevOps and AI, emphasizing emerging trends in cloud careers, automation, and tools like Amazon Q and no-code platforms.

AWS CloudVerse 2025 – Exploring Innovation in Cloud Computing15 Feb, 2025 - 15 Feb, 2025

Institute Name: AWS Cloud Club – Parul University in collaboration with AWS User Group Vadodara

- Key Skills:
- Cloud Computing
- AWS Services Serverless
- Architecture
- Artificial Intelligence

Participated in AWS CloudVerse 2025 — an immersive event designed to connect and inspire students and professionals in the cloud ecosystem. Sessions covered AWS advancements, serverless solutions, and AI/ML integration in cloud platforms. Grateful to Dr. Vaibhav Gandhi, AWS Cloud Club – Parul University, and AWS User Group Vadodara for hosting this impactful experience.
